

Directory of Local Empath Support Groups

Mission Statement: Empath support groups are meant to provide a circle of support for empaths everywhere so we don't feel alone anymore. They are solution-oriented meetings, which will educate empaths about their gifts and the challenges of their sensitivities. Though it is important for empaths to express their feelings, the group functions best when it remains solution-oriented rather than simply a place vent.

The suggested time is 60-90 minutes. Have fun and grow strong!

You can download the Mission Statement at

*****PLEASE NOTE:** If you want to add a new group to this list contact Rhonda at rhonda@judithorloff.com. Also, this list is not maintained or current.
